☑ **Open to Work - Available Immediately**

I prevent $150-200M Star Rating crises for Medicare Advantage health plans using AI-powered predictive analytics.

$13M-$27M Annual Value | 91% ML Accuracy | <100ms API Response | $200M+ Total Impact

FEATURED PROJECTS

HEDIS Star Rating Crisis Prevention System

$150-200M crisis prevention value

- 91% AUC-ROC accuracy across all models
- $13M-$27M annual portfolio value (100K members)
- <100ms API response time, production-ready

Technologies: Python, Scikit-learn, LightGBM, FastAPI, Docker, HIPAA-compliant

🌐 Live Demo: https://hedis-ma-top-12-w-hei-prep.streamlit.app/

Enterprise SQL Data Integration

$200M+ documented savings

- $200M+ contribution to healthcare program savings
- 34% improvement in program performance
- 40% reduction in hospital readmissions

Technologies: SQL Server, ETL, Healthcare Coding (ICD-10, CPT, DRG)

Executive Dashboard Suite

22% satisfaction gain | $32M bonuses supported

- 22% increase in CMS member satisfaction
- $32M in performance bonuses supported
- 14 hours/week saved in reporting

Technologies: Tableau, Power BI, Plotly, Real-time Analytics

🌐 Live Demo: https://hedis-ma-top-12-w-hei-prep.streamlit.app/

CORE SKILLS

Healthcare: HEDIS MY2025, Star Ratings, CMS Compliance, HIPAA, ICD-10/CPT

AI/ML: Scikit-learn, LightGBM, XGBoost, SHAP, Feature Engineering

Software: Python, FastAPI, Docker, CI/CD, 99% Test Coverage

BI: Tableau, Power BI, SQL Server, Plotly, ROI Analysis

EDUCATION & CERTIFICATIONS

MBA in Administration | BA in Economics

Healthcare Data Science Specialist | HEDIS Compliance Expert | AI/ML Model Development

KEY ACHIEVEMENTS

- Production ML systems achieving 91% accuracy across 12 HEDIS measures
- Delivered $200M+ in healthcare program savings through data integration
- Real-time dashboards serving 800+ sites with 4,500 monthly reports
